About NMDC

NMDC Limited, a Navaratna Public Sector Enterprise under Ministry of Steel, Govt. of India is the largest producer of iron ore in India. It owns and operates highly mechanized iron ore mines in Chhattisgarh and Karnataka States, where it produced 35.5 million tonnes of iron ore in FY'18. It also operates the only mechanized diamond mine in Asia at Panna, Madhya Pradesh, India.

NMDC has a comprehensive growth plan to almost double its iron-ore production capacity in the coming years to a level of 67 MT by FY'22. Besides, as a part of its diversification and forward integration plan, it is setting up a 3.0 MTPA green field Steel Plant at Nagarnar in Chhattisgarh, which is in advanced stage of construction. It also has forayed into pellet- making.

NMDC's motto is to carry out responsible mining with commitment to sustainable development practices which are also integrated in all its decision making processes and business planning. Pursuing this path, five of NMDC's mines have been conferred 5-star rating from Indian Bureau of mines for excellence in sustainable mining.

The ethos and passion of NMDC collective has created a unique organizational culture of responsibility towards all its stakeholders. NMDC has an avowed stand that the first beneficiary of its success ought to be the community in whose midst it undertakes its mining activities and thus CSR has been a way of life at NMDC, ingrained in its very DNA. NMDC takes pride in transforming people and societies in its vicinities through its community engagement programs.

About the Event

Commemorating its 60th year of formation, NMDC in association with Federation of Indian Chambers of Commerce & Industry (FICCI) is organizing an International Conference on “Minerals & Metals Outlook 2030” on October 9-10, 2018 at Hotel Taj Palace, Diplomatic Enclave, New Delhi.

The key objective of the event is to have deliberations on Minerals and Metals industries. The programme will also witness a Global CEO Session and Country Panel Discussion, having participation from top CEOs and Country Heads deliberating on the future of minerals and metals worldwide.

As is widely known, India is well endowed with most of the minerals. It produces 95 minerals, including fuel, atomic, metallic & non-metallic and minor minerals. India’s mining sector offers tremendous potential and presents a vast opportunity for investors to mine the unexplored region.

Also, with rapid pace of urbanization in the country, it is expected that there will be steadily increasing demand for mineral and metals, especially from infrastructure and manufacturing sectors. With its vast minerals resource base, it is not an uphill task for India to leverage its mineral and metal processing potential, provided that all the concerned stakeholders, from the domestic and the international community come together, to boost the mineral and metals' production in the country in a planned and sustainable manner.

Event Objectives

- Understanding global commodities market for minerals and metals
- Highlighting the inter-linkage between mineral development and economic growth
- Highlighting the developments in the international markets that can impact the Indian minerals and metals industry
- Identifying opportunities in Indian minerals and metals industry
- Offering an effective platform to existing and potential miners and metal producers, both domestic and international, for establishing and maintaining mutually beneficial business relationships
- Highlighting new growth drivers revolutionizing the Minerals and Metals Industries

Conference : Minerals & Metals Outlook 2030

Our endeavour, through this conference is to discuss the new growth drivers that are revolutionizing the global & Indian mineral & metal industries and assess challenges & opportunities associated with technology adoption along with identifying new growth frontiers for the decade ahead.

The conference would be a two-day event:

Day 1

There would be an Inaugural Session, followed by a Global CEO Session and Country Panel Discussion, having participation from top CEOs and country heads. It would focus upon current trends, developments, challenges and future prospects in both mineral and metal sectors. The evening will witness a cultural function followed by networking dinner.

Day 2

There would be sessions on the global Minerals and Metals outlook, technological advancements in the production process, augmentation of logistics infrastructure, and key milestones in the journey for the next decade. The conference would then be concluded with a Valedictory Session.

Major areas of Discussion and Consideration

Development in
Minerals Industry

Technologies
Defining Growth of
Global Mineral
Output

Technical Innovation :
Specific Case Studies

Mineral Processing &
Beneficiation
Including By-Product
Recovery and Waste
Management

Steel Making and
Challenges for the
Steel Sector

Leveraging
Technological
Developments for
Increasing Efficiency

Inter-linkage of
Mining and Steel in
Global Perspective

Non-Ferrous industry
& its Contribution to
Economy

Investment
Opportunities in
Mineral and Metal
Sectors

Infrastructure and
Logistics
Development

Policy Advocacy and
Refulations

Climate Change
and Emmission
Management

Benefits of Participation

- Deliberation and Analysis of Global and Indian minerals and metals Industries
- Networking opportunity with minerals organizations, metal producers, logistics and equipment manufacturers for business alliances & partnerships
- Interaction on Emerging Technologies for mineral development and metal processing
- Interaction with Government Officials and Statutory Bodies, both from India and overseas
- Deliberation over opportunities in mineral exploration and evacuation techniques
- Deliberation on policy environment for fostering growth of minerals and metals industries

Speakers Profile

Global & Domestic
Metal Association &
Producers

Country Heads

Policy Makers

Global CEOs

Global & Domestic
Minerals
Organizations &
Associations

Central & State
Government Officials

Logistics Providers

Technology Providers

Industry Consultants
& Academicians

Mineral Development
Corporations

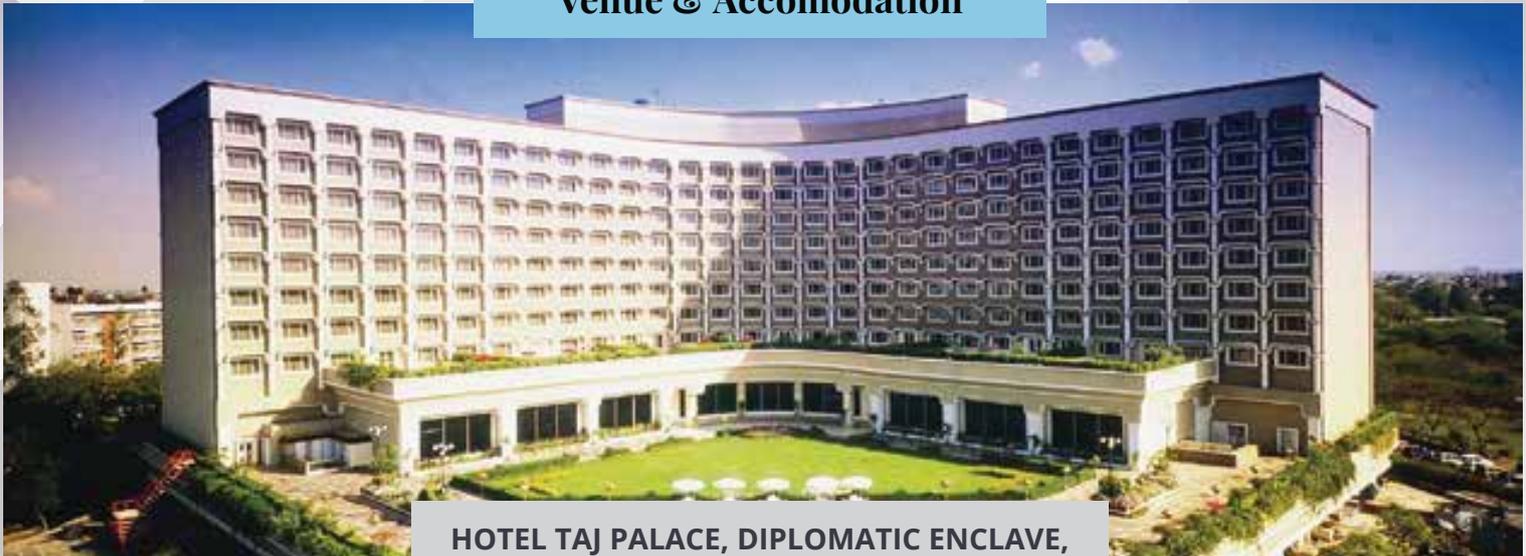

Infrastructure
Developers

Mine Equipment
Manufacturers

Who Should Attend?

- International and Domestic Metal Associations & Producers
- International and Domestic Minerals Organizations
- Infrastructure Developers
- Logistic Suppliers
- Construction Companies
- Mineral Development Corporations
- Government Policy Makers & Decision Maker
- Mining & Metallurgical Consultants
- Engineers & Architects
- State Metal & Mining Corporations
- International Metal Institutes
- Domestic & International Investors
- Financial Institutions
- Trading & Marketing Companies
- Geological Institutes

New Delhi : The Host City

Delhi, home to more than 19 million people and covering an area of 1,484 sq. km, is the national capital of the country and the heart of the nation. Delhi is the largest commercial centre in northern India. A century ago, the British moved the seat of their empire from Kolkata to New Delhi and Delhi has been the Capital of India ever since.

A symbol of the country's rich past and thriving present, Delhi is a city where ancient and modern blend seamlessly together. Now a thriving, cosmopolitan metro, the city has much to celebrate as it has already reached the milestone of completing 100 years as a Capital. With a history that goes back many centuries, Delhi showcases an ancient culture and a rapidly modernizing country.

Dotted with culturally diverse history, there is much to discover here. The seat of many powerful empires in the past, its long history can be traced in its many carefully-preserved world heritage sites. As a Capital city, it is fittingly a window to the country.

Places to visit near New Delhi :

Taj Mahal | Red Fort | India Gate | Akshar Dham

India: The Host Country

India, home to more than 1.2 billion people is not just one of the fastest growing economies of the world, but also the world's sixth-largest economy by nominal GDP and the third-largest by purchasing power parity. Covering an area of around 3.287 million sq. km, it is one of the most ancient countries in the world, known worldwide for its mineral strength & diverse terrain.

The rich civilization of the country traces back to the age when many of today's developed countries were not even discovered. India has a great and culturally enriching past.

It is a wonderful country with great diversity, ranging from scenic beauty of the great Himalayas in the north to the luxuriant coconut groves of the Malabar Coast in the south; from the deserts of Rajasthan in the west to the rich cultivated thickly populated Gangetic plains in the east. With its significant growth potential, the country has certainly become a land of hopes and a preferred destination for foreign investment around mining and metals.

Organizing Partner

About FICCI

Established in 1927, FICCI is the largest and oldest apex business organisation in India. Its history is closely interwoven with India's struggle for independence, its industrialization, and its emergence as one of the most rapidly growing global economies.

A non-government, not-for-profit organisation, FICCI is the voice of India's business and industry. From influencing policy to encouraging debate, engaging with policy makers and civil society, FICCI articulates the views and concerns of industry. It serves its members from the Indian private and public corporate sectors and multinational companies, drawing its strength from diverse regional chambers of commerce and industry across states, reaching out to over 2,50,000 companies.

FICCI provides a platform for networking and consensus building within and across sectors and is the first port of call for Indian industry, policy makers and the international business community.

About METALOGIC

Creating Impactful & Memorable Events

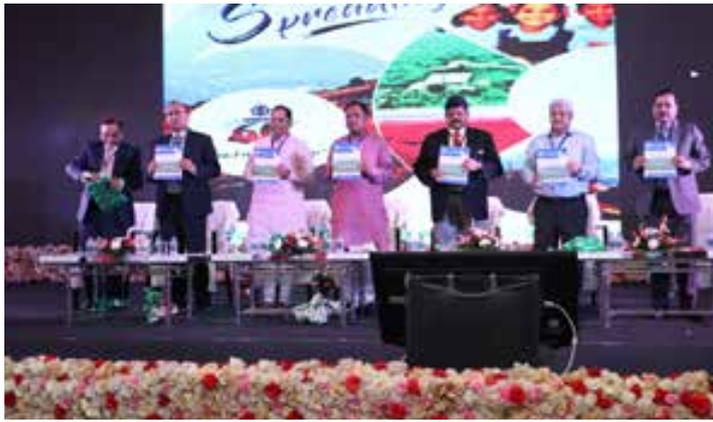

With a decade of corporate events experience, Metalogic will make your event one to remember. From creating a theme based agenda on current affairs to eminent speakers selection, Metalogic will help you build your event from ground up.

International to Regional Conferences

Our wide range of topic selections will ensure you have the exact event which would be beneficial for your business. From International conferences to regional seminars & workshops, we can help you find the event that would best suit your company's needs. Our recent event on Indian Steel & Trade 2018 was a grand success with policy makers, international trade consultants and industry stalwarts coming together to discuss on the ongoing global trade dynamics and its impact on India.

A History of Satisfaction

Media and our clients agree that our events are a big hit... Our endeavour is to strive for 100% success, which our clients look for. From email updates on day to day event planning to managing the event day, we will support you the whole way through.

Delegate Registration Form

Yes, my company '.....' would like to register to *International Conference on Minerals & Metals Outlook 2030*. I request you to generate an invoice on the below information (Company/Address) provided by me.

No. of Delegate	Tariff in INR	Tariff in USD	Please Tick (✓) On Your Choice
1	5,000	100	
2	10,000	200	
3	15,000	300	
4	20,000	400	

All payments are to be made through online transfer / Demand Draft drawn in favour of "Federation of Indian Chambers of Commerce & Industry".

Bank Details for Delegate Registration (RTGS/NEFT, Cheque or DD)
